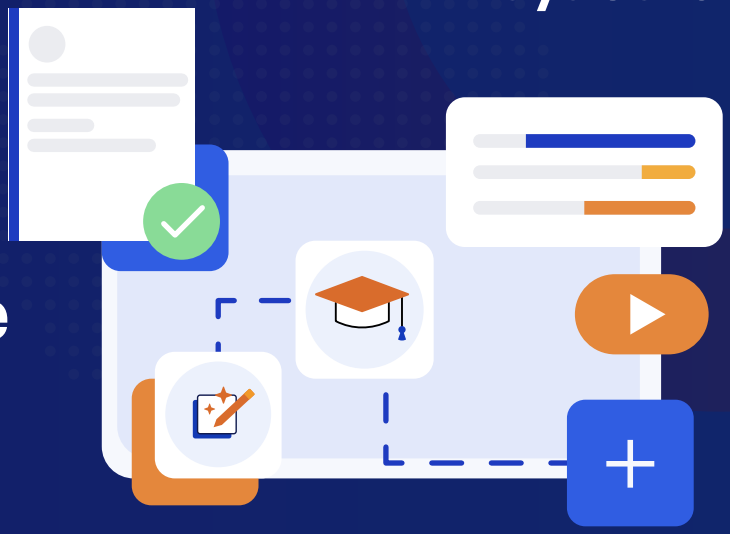
AlayaCare

AlayaCare University

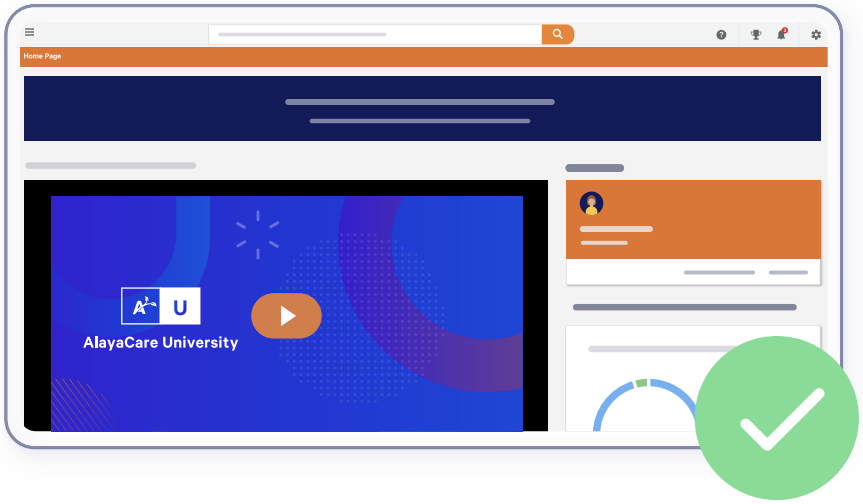
Extended Enterprise

Your customizable learning platform



AlayaCare University offers expert-led and professionally created training modules for your employees to gain deeper knowledge of the AlayaCare platform and support their adoption. Your team has access to ACU Foundations, our free library of video modules sharing best practices and workflows for quick onboarding.

Take your team's training to the next level with ACU Extended Enterprise to create an on-brand learning experience. With the ability to design the look and feel of your own ACU platform and ability to upload your own customized training materials, you can create a tailored experience for your staff. Within ACU Extended Enterprise, easily create and manage user accounts and course enrollments, set up custom notifications, and build custom reports based on your agency's unique needs.



ACU Extended Enterprise is your one-stop hub to:

- **Create an on-brand learning experience for your staff**
- **Reduce new hire software adoption**
- **Quickly train team members to your agency's custom work-flows**
- **Quickly train team members to your agency's custom workflows**

ACU Extended Enterprise Features

White labeling

Design the look and feel of your platform to create an on-brand learning experience.

Custom training material

Create and manage your own training material tailored to your agency's specific workflows.
