Enterprise-Class Guidance, Engagement, Insights and Automation

WalkMe's DAP enables the creation of interactive, on-screen sequences that guide and engage users throughout any digital experience. Powered by AI and machine learning, WalkMe's context-intelligent algorithm streamlines digital adoption internally and externally, ensuring that the right users receive the right information exactly at the moment of need.

Seamlessly Implement and Adopt AlayaCare Software Functionality

The WalkMe integration helps agencies partnered with AlayaCare in various roles to implement and adopt the software functionality seamlessly through in-product guidance, video tutorials and comprehensive support from within the AlayaCare solution.

- **Learn the software through self-directed training using walk-throughs and video tutorials**
- **Access certification courses through AlayaCare Univeristy to master specific software functions**

Enhance Knowledge Retention Through Real-Time Training

In order to boost new hire productivity, WalkMe will make it easy for employees using AlayaCare to achieve and retain proficiency on complex workflows and company specific routines in a shorter timeframe.

- **Create custom quizzes that can be used to measure onboarding and identify knowledge gaps**
- **Embed best practice workflows directly into the platform**
- **Ability to measure if best practices are being followed consistently as your organization scales**

Stay up to Date with Product Notifications and Updates

Each month, AlayaCare releases a slew of new features. While we design each and every new feature with the goal of adding value to the tools you use each day, we recognize that it can be tough to keep up with so many updates. WalkMe can help you stay up to date.

- **As the software evolves, WalkMe will notify you if one of your walk-throughs or videos are no longer relevant and require an update**
- **Keep documentation up to date and to ensure the newest features are embedded into your best practice workflows**

Pricing - $300/month

Subscription begins after the first custom video, shuttle, WalkMe or TeachMe is live in training/staging/production. Professional Services will be billed as time and materials. Estimates for effort:

- TeachMe: 2 hours
- Basic WalkMe: 4 hours
- Complex WalkMe: 4-16 hours

Better Technology, Better Outcomes.
